EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicants, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. J. Michael Neary on 31 March 2004.

The application has been amended as follows: In claim 77, lines 6, 10, 12, 13, 14, 17, 19, 20, each occurrence of "features" has been changed to -means-, in line 20, the period has been changed to a semicolon and the following subsection has been inserted after line 20:

-said wing panel coordination means in registry with corresponding coordination means in said spar flanges being free of fasteners. -

In claim 80, line 2, "78" has been changed to -82-; claim 81 has been cancelled; in claim 78, lines 3, 5, and claim 79, lines 3, 5, each occurrence of "features" has been changed to -means-.

The drawings were received on 1 December 2003. These drawings are objected to because, in Figure 12, reference numeral "144" is unclear and indistinctly rendered. Correction is required.

Application/Control Number: 10/001,536
